Maximum number of treatments: 3 per year
Latest time of application: Early autumn

To avoid risk to human health and the environment, comply with the instructions for use.

FERROMEX[®] - INSTRUCTIONS FOR USE

WHEN TO USE

Ferromex is an easy-to-use liquid Mosskiller and lawn feed to control moss AND encourage healthy growth of lawn grass.

It is most effective when applied to actively growing lawns in moist conditions from early spring to early autumn. Do not use in drought, freezing conditions or when rain is imminent. Apply 3 days after and 4 days before mowing on a still day. Do not exceed recommended dose.

HOW TO USE

Mark out area to be treated and apply evenly at the following rates:

Watering Can: 150ml into 9L of water to treat 10m²

Knapsack Sprayer: 150ml into at least 500ml of water to treat 10m²

Rake out dead moss when it has turned black, usually 7-14 days after treatment.

Re-treatment may be necessary for heavy moss infestation, or if moss returns.

Avoid walking on treated areas until dry. No need to water in. If spilt on paving, concrete etc. Wash off immediately to avoid discolouration.

SAFETY INFORMATION - Read Label before use
WASH HANDS AND EXPOSED SKIN AFTER USE/ HANDLING.
If medical advice is needed, have product container or label to hand.

A soluble concentrate containing 381.15g/L ferrous sulphate heptahydrate (16.0% Iron Sulphate with a 4.6% w/w nitrogen).
